

Part of a Little Girl's Composition

"Both men and women sprang from monkeys, but the women sprang farther than the men."

Same way with furniture.

All furniture sprang from wood (after the Stone Age) but some gets farther than others from mere WOOD.

Furniture is considered at Hooker's from the standpoint of adaptability, and this embraces not only its fibre, grain, structure and composition, but its style, finish and color.

Appropriate furniture for every spot in the house.

Our Service is at YOUR service.

We have been training and studying the "usefulness" of furniture for 25 years. It will be worth your while to use this knowledge when ready to make your home more attractive.

Howard T. Sands of Boston, general manager of the Tenney company's holdings in central Vermont, was a visitor in the city yesterday, calling on Manager C. F. Millar of the Consolidated Lighting company.

Evidence of the power of publicity in connection with the national advertising campaign inaugurated by the Barre granite manufacturers' and quarriers' associations last spring continues to accumulate. Within a week inquiries have been received at the headquarters of the campaign from China, Mexico, South American countries, Scotland, Jamaica, Cuba and Central American states. Requests for copies of "Memorial Masterpieces," an illustrated book on Barre granite, have been received in numbers from all parts of Canada. In many instances inquiries refer to the Saturday Evening Post advertisements, while others quote descriptive material included in advertising matter that appeared in monthly periodicals.

Occupying the exact spot where General Washington stood and watched his shivering but determined Continental soldiers cross the Delaware river at Taylorsville, Pa., on Christmas night, 1776, and fall upon the unsuspecting Hessians, a handsome memorial of Barre granite was recently unveiled. More than 127,000 members of the Patriotic Order of Americans in Pennsylvania contributed funds for the shaft and a thousand persons witnessed the unveiling. The memorial comprises a striking life-sized figure of George Washington, carved in Barre granite and surmounting a base of the same stone, the whole rising 40 feet above the ground on a commanding eminence overlooking the Delaware. It was quarried by the Consolidated Quarry Co. and cut at the plant of Young Bros. in this city. On the front of the die is a bas relief in bronze, the scene being taken from the celebrated painting of "Washington Crossing the Delaware."

Bob Dunbar, writing in the Boston Journal of yesterday, has the following to say of things athletic at Goddard seminary: "H. J. Mowles of Goddard seminary writes that Charlie Hoernle of Dorchester high is 'going big' as football coach, and is so popular that he could have the city of Barre for the asking."

Goddard seems to be unable to arrange games with other prep schools, the schedule consisting of matches with the Middlebury, Norwich and Vermont second teams and the St. Peter's A. A. of Rutland. Perhaps Huntington or some other Boston school would like to give the Vermonters a Thanksgiving day game hereabouts. The school that sent Witt to the Athletics and "Porky" Faulkner to the Reds, claims to have some more big league material ready for next year.

Granite manufacturers throughout the Barre district are facing a car shortage that promises to become quite as serious as the conditions which prevailed earlier in the year. Congestion was responsible for the shortage last spring, but large shippers are unable to account for the present difficulty experienced in obtaining cars. Finished work is piling up rapidly in some of the sheds and unless relief comes within a fortnight the shortage will become acute. Many shippers have had to resort to the use of box cars and in some instances heavy vault jobs have been consigned in the upright cars. This method of transportation is very unsatisfactory, but rather than delay longer shipments that were due sometime ago, manufacturers gladly accept the box cars whenever they come along. One manufacturer has a standing order for 55 flat cars.
